

# Fabric Panel: Custom Order Options

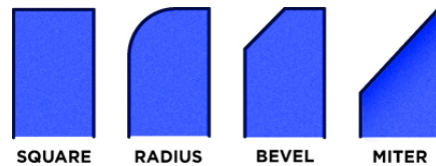

## I. Soft Edge Or Hard Edge

Default: Soft Edge. No upcharge.  
Upgrade: Hardened Edge. Add \$10 per panel. (Recommended for Gymnasiums)

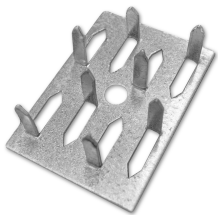

## II. Edge Profile

Default: Square Edge. No upcharge.  
Upgrade: Bevel, Miter or Radius Edge.  
Add \$10 per panel

## III. Installation Clip Options

NetWell offers three popular clip systems to help with the installation of your upcoming sound panel project.

### A. Impaling Clips (included standard)

Anchor these Clips to your wall.  
Apply Silicone Adhesive to the backside of your panels  
Press panels to the wall. The teeth of the clips grab the panel.  
No additional cost for Impaling Clips.

### B. Rotofast Snap-on Anchors

Our most popular mounting technique. A plastic clip system that is super easy to use, and requires no glue. Ideal for any surface, wall or ceiling mount. Add \$10 per panel.

### C. Z Clips or Z Clips + Wall Bars

We anchor metal clips to the backside of your panels, and ship separate brackets you will anchor to the wall.  
A good alternative to the Rotofast Snap-on Anchors when the mounting surface is brick or block. Add \$10 per panel for Z Clips and \$20 per panel for Z Clips & 4' wall bars.

Specialty fabrics are custom quoted
