

- Standard size 2' x 2' or 2' x 4'
- Custom sizes available
- 1" or 2" thickness
- Multiple finish options
- Excellent acoustical values
- Offered with a 1# psf vinyl noise barrier for high STC requirements (Granite Tile)

Pebble & Granite

ACOUSTICAL CEILING TILES

Netwell Ceiling tiles are offered as a sound absorbing or combination sound absorbing + sound blocking tile.

Pebble Ceiling Tiles come in several finish options attached to a 1" or 2" thick rigid fiberglass board and have excellent sound absorption (NRC) ratings.

Granite Ceiling Tiles take the standard Pebble Tile and add a 1# per square foot foil backed vinyl noise barrier to the upper side of the tile for high sound absorption (NRC) and high sound blocking (STC) requirements.

FINISHES

- 2 mil white pebble grain vinyl facing
- Black matte facing
- Fabric
- Paintable

ACOUSTICAL

NRC Rating

1" Thick ————— .85

2" Thick ————— 1.15
