SoundScreens

SoundScreens are portable sound barrier blanket kits designed to provide sound protection in a variety of industrial and commercial settings. Maneuver these kits into place to surround harsher noise infested areas, separating loud sound sources from employees you seek to protect.

1-800-638-9355

- 4' wide x 8' tall
- Includes tubular frame
- Includes caster wheels
- Class A Fire Rated

Applications:

Ideal for providing portable sound enclosures and sound barrier wall systems to reduce decibel level exposure stemming from industrial machinery, computer racks, copiers and related stationary sound sources.
