VET Baffles

VET Baffles suspend vertically in a variety of loud commercial or industrial venues. Idea for combating sound reflections in a room, cleaning out the background noise, and delivering good room acoustics with maximum sound control.

- 24" x 48"
- 2" thick
- Grommets in 2 corners
- 12 PVC colors

Applications:

In commercial settings, the VET Baffles absorb sound reflections, cleaning out background noise in a room, and delivering clean room acoustics back into the room. For industrial settings, the baffles absorb machine noise, and reduce decibel level exposures for employees.
