

- Excellent acoustical performance
- Class A fire rated per ASTM E-84
- Various mounting options
- Custom sizes and shapes

BLUSH

ACOUSTICAL WALL & CEILING PANELS

NetWell Noise Control sound panels with BLUSH finish are the perfect solution where a traditional fabric finish is not desired. The acoustically transparent, paintable finish blends well with finished drywall to create a space absent of echo and reverberation. Rather than a textured finish of fabric, BLUSH panels provide for an understated, more discreet acoustic finish within a space.

BLUSH finish by NetWell Noise Control is part of a Class A rated system tested per ASTM E-84. In standard Signature White or any Pantone color, NetWell Noise Control BLUSH finished panels provide absorption required to create an acoustically correct space. Available in 1-1/8" and 2-1/8" NetWell Noise Control sound panels in BLUSH finish provide a range of NRC values suited to any acoustical solution.

APPLICATIONS

- Schools/Universities
- Auditoriums
- Houses of worship
- Office spaces
